## SAMUEL HAYNES DIES AFTER BRIEF ILLNESS.

Samuel Haynes, an honored and highly respected citizen of West Hickman, died at two o'clock Sunday morning, after an illness of only three days; locked bowels being assigned as the cause of his demise.

Mr. Haynes was just past 69 years of age. He had resided in this vicinity for more than a quarter of a century, coming to Fulton county from near Ripley, Tenn. Some forty odd years ago, he was united in marriage with Miss Rumley, and the wife and four children survive him. The children are Mrs. Jno. Ryan, Mrs. Bob Woolsfer, Buel and Lennie Haynes. All reside in Hickman except Lennie, whose home is in Arkansas. Deceased was a charter member of the West Hickman Baptist church; and an honorable, upright gentleman. For many years he followed the carpenter's trade; in fact, was engaged on a job when the fatal illness overtook him.

Funeral services were held at three o'clock Sunday afternoon at the Baptist church, being conducted by Rev. J. B. Housley. Several hundred friends attended the service, many of whom were unable to get into the house. Interment followed at Brownsville cemetery.

In the death of Mr. Haynes Hickman loses a fine citizen; one of those stalwart, peaceful, quiet men, who form the bone and sinew of a nation's strength and honorably discharge the duties of citizenship.

Peace to his ashes.

## \$43,000,000 RIVERS BILL PASSES SENATE.

The filibuster conducted by Republicans for a month against the rivers and harbors bill failed Monday afternoon, when the Senate passed the waterway measure carrying appropriations for approximately \$43,000,000, by a vote of 35 to 32.

The eleventh hour efforts to recommit the bill with instructions to report out a lump sum, one fixed at \$20,000,000 and the other at \$30,000,000, were voted down, the first by 37 to 23 and the second by 35 to 34. Senator Stone of Missouri, hurried into the chamber from a conference with a Cabinet official in time to cast the deciding vote against recommitment.

The bill will now go to conference because the Senate provisions call for \$3,000,000 more than those authorized by the House. It is not expected the measure will be returned to the two Houses for final sanction until after the national convention.

## NEW MAIL BOXES.

The department has furnished the Hickman postoffice with seven new mail boxes, which will be placed at various sections of the town, for the convenience of those wishing to mail their letters without going to the postoffice. Two or three such boxes were used up until a few years ago, but were discontinued for some reason.

Bids will be received for the erection of the new boxes; posts for same to be set in concrete.

Mrs. J. C. Sexton and daughter, Kathryn, and Mrs. W. C. Speer and son, Clarence, left Sunday morning by Lee Line steamer for St. Louis. From there they go to Sturgeon, Mo., to spend a month with home folks. They were accompanied to St. Louis by J. C. Sexton.

Paul Blakemore was here from Kennett, Mo., first of the week, visiting his parents, W. F. Blakemore and wife, and brother, Gene Blakemore.

A. E. Owen, wife and baby spent Sunday with his sister, Mrs. Cunningham, and brother, E. E. Owen, at Union City.

C. C. Humber and R. V. Putnam spent Sunday at Paducah.

## BALL GAME FRIDAY TRUE TO PROPHECY.

The Fats and Leans staged comedy stunts last Friday at Athletic Park according to schedule, and the good crowd present were loud with their applause.

The game was called promptly at three o'clock by Umpire S. L. Dodds, and until the end of the game there was something doing all the time.

Among the shining lights (or those who had the nerve to stick it out even though it put them in the hospital) were Sid Hamby, Chauncey Reed, Sheriff Huddleston, Mitchell, Roscoe Stone, Stahr, Roney, Alex Stone. Wright and Longnecker did not last long, their places being taken by substitutes. Roney and Alex Stone started the twirling and went along for several innings like veterans (and they are.) Their support at times was brilliant, at other times had almost to the point of indifference. Others tried their hands, and what few curves they used to have with varying degree of success, the Fats finally ended up with "Cherry Red," of the regular Hickman team, in the box.

Among the casualties who received first aid from the Red Cross nurses—Misses Rice, Binford and Barrett—were Roscoe Stone, who must have had his fingers buttered when a fly ball went through his "dukes" and hit him in the face, Bailey Huddleston, who tried for the long distance slide, and Bob Roper.

The final score was 13 to 17 in favor of the thin ones. No effort was made to keep track of the errors made by the players on both sides. "It couldn't be did."

About \$15 was netted for the Hickman team, under whose auspices the game was staged.

Those who stayed away from the game missed at least one good laugh.

## REVIVAL CLOSED SUNDAY. TWENTY PROFESSIONS.

The revival at the West Hickman Chapel closed Sunday. Rev. A. J. Spence, pastor, was assisted in this work by Rev. E. G. Hamlett, evangelist, and D. G. Stephenson, singer. It was a splendid revival, resulting in twenty professions and a number of reformations, besides a renewed interest in religious work. As a whole, the meeting was one of the best and most successful held here in many years.

## A NEW DEPARTURE.

W. M. Smart, industrial agent of the N. C. & St. L. Ry. was here Friday and appointed the Courier as local representative of this road's co-operative real estate department, a new feature with the railroad people; one which, nevertheless, will doubtless prove profitable to the railroad and the community. In a nutshell, the railroad will reach out in an effort to pull new citizens to any and all communities along its lines. Fulton county will receive its share of exploitation through the railroad company's advertising in journals and magazines of the north. Inquiries will be referred to the various local representatives, who happen to have listed the kind of land or a location suitable to the wants of the prospective purchaser; as Mr. Smith will have this information before him. If you want to sell your Fulton county farm, let us list it for you.

The Confederate Reunion at Birmingham last week elected Gen. George P. Harrison, of Alabama, commander-in-chief and decided to hold the Reunion next year at Washington City.

Lexie Rice and Marshall McDaniel have returned from Lexington where they have been attending school.

Construction work on a new \$14,000 railway station for Charleston will begin within sixty days.

### County School Notes

By Miss Virginia Luten  
County Supt.

Fulton will have an extension school this summer for a term of six weeks for the benefit of those pupils who from sickness or other causes have not made their grades or wish to do stronger work in one or more subjects. This is an excellent plan and another evidence of the growing school spirit at Fulton. Twenty-seven pupils have just graduated from the high school. The class was addressed by Mr. McHenry Rhoades, State Supervisor of High Schools. It was an honor to have him come to Fulton county. Mr. Rhoades knows more about the high school work of the State and the standing of these schools than any other person. We are glad to know that he speaks in the highest terms of Mr. Calvin, the newly elected head of the Hickman school, and says that Hickman could not have selected a better man for the place. Mr. Calvin comes to us with very strong endorsements from other leading school people of the State. He is a progressive school man with a great deal of advanced work, at Chicago University and elsewhere, beyond the requirements for the A. B. degree.

At the sale Saturday the following school property was sold: Cayce school house and grounds to J. F. McClellan and A. W. Fowler. \$302.50  
Rush Creek house and grounds to W. H. Treas 152.00  
Edmiston school house 150.00  
School bell to L. W. Tucker. 75  
Coal to T. E. Pearigen. 4.25

Total. \$609.50

A new four acre site for the new school will be purchased from Geo. Menese. The front will be graded and sodded, and will furnish a good playground.

## SEASONABLE DISHES.

A pretty as well as a tasty dish to serve with lamb or roast of meat is celery relish.

**Celery Relish.**—Place half a box of gelatin in a cupful of water, heat a cupful of water and when the gelatin is soft add to it.

While hot add the juice of two lemons, and a half cupful of sugar. Let cool, then add a tablespoonful of fresh grated horseradish, a dash of cayenne and color a light green with vegetable coloring. When almost ready to set pour into a mold with a cupful of chopped celery. Set on ice to harden and cut in squares to serve. This may be served on lettuce with a salad dressing making a most attractive salad.

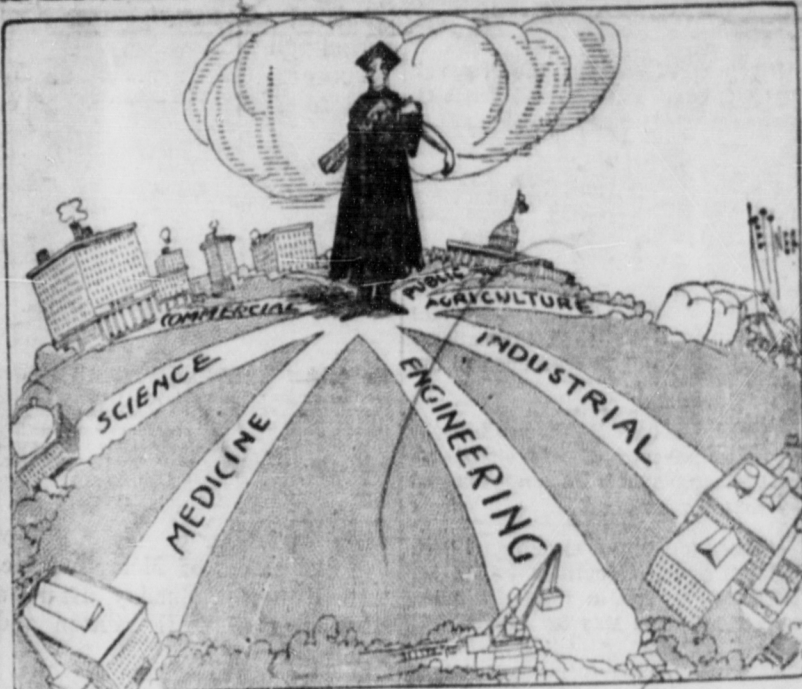

**Manhattan Apples.**—Core and pare six or eight apples, cook in a sirup made of a cupful and a half each of sugar and water, turning often until the apples are tender. A good way to add to the flavor of this dish is to cook the apple peelings in water to cover, strain and use that with the sugar for the sirup. If the apples have a red peeling it will make them a beautiful pink color. Have ready as many rounds of sponge cake as there are apples, brown in a little hot butter and on each place an apple, pour over the sirup and serve with whipped cream or simply with the apple sirup. If one likes, and the color cannot be obtained from the peelings, add a little currant jelly to the sauce for coloring.

**Newport Whips.**—Stand a glass of raspberry jelly in a warm place where it will soften to a thick sirup. Beat the whites of two eggs until foamy, add the jelly, then gradually pour in a cupful of thick cream; stir in a half cupful of powdered sugar and beat all together with a large dower egg beater or whip in a cream churn. Take off the froth as it rises and place in a sieve to drain. When no more froth appears arrange it in glasses placing a spoonful of the froth on top of each. Serve icy cold. One may make this with jelly, egg and a little sugar without the cream, beating just the same. Then serve with whipped cream if so desired.

COTTON CONDITION IS  
ESTIMATED AT 80.

Acreage planted to cotton in the cotton belt this year is estimated by The Commercial Appeal at 9.8 per cent over that of last year. This estimate is based upon reports from correspondents from all sections of the belt.

The condition of the crop as of average date of May 23, is estimated at 80 per cent of normal. This compares with an average of 80 per cent, the government estimate for May 25, last year.

The crop may be classed as good in the western belt, excellent in the central and poor in the eastern belt.

Dry weather in some sections and heavy rains in others have made the Texas crop late, but the crop is making good progress. There is a large acreage increase in all the trans-Mississippi States, as well as most central belt States, but the diversification idea has prevented a return to the one-crop system of 1914.

In the east a moderate acreage increase is shown, and dry weather has greatly interfered with stands in that section. Recent rains will do much to overcome this condition. A big decrease in the use of commercial fertilizers is reported, and that used is of inferior quality, owing to the absence of potash from its make up.

Cultivation, as a rule, is well up, although recent heavy rains west of the river especially in Texas and Louisiana have retarded farm work somewhat, and some fields are getting in the grass. However, the past week of favorable weather should have greatly improved this phase of the crop. Some scattering reports of boll weevil are heard, but to date their appearance is by no means general, even in the worst infested areas.

A condensed report from States is as follows:

**ALABAMA**—Crop is nearly all planted and is up to fairly good stands over probably 85 per cent of the State. Cool nights have retarded growth somewhat, but plant, while small, is healthy. Prevalence of boll weevil has prevented a large acreage increase. Heavy reduction in use of commercial fertilizers. Cultivation fairly well advanced and ground generally in good condition, but some fields in grass.

**ARKANSAS**—Planting is almost completed and the crop is coming to a good stand. Replanting has been rather less than the average. Although weather has been somewhat cool, the plant is quite generally strong and healthy. Ground well prepared and while there is some grass as a rule fields are well cultivated. Use of commercial fertilizers has been quite heavily decreased. Although more cotton is planted, diversified crops are still popular.

**GEORGIA**—The long drought has resulted in poor stands, but most correspondents think that recent rains will soon remedy this defect. Cultivation has been well advanced, owing to the dry weather, which afforded opportunity for farm work. Plant that is up is generally quite healthy, but somewhat small. There has been a heavy reduction in the use of fertilizers and the quality of that used is poor.

**LOUISIANA**—Crop had a good start, but heavy rains of 10 days ago checked the advance and may result in considerable replanting. Stands fairly good, except on overflowed districts, where replanting is necessary on a large scale. Plant healthy and growing. Cultivation checked by heavy rains and some fields in grass, but present favorable weather should soon remedy this defect.

**MISSISSIPPI**—Planting is well advanced—almost completed—and stands are exceptionally good taking the State as a whole. Cultivation is well advanced, although recent heavy rains have caused some complaint of grass in the fields. Although the cotton acreage has been increased heavily, most planters are still growing sufficient feed crops for home consumption. In the delta the outlook is probably the most favorable in a decade. Few boll weevils have been seen so far. There is considerable reduction in the use of fertilizers in the hill section.

**NORTH CAROLINA**—Weather has been dry over most of the State and as a result stands are poor. Whether the recent rains

will entirely overcome this handicap remains to be seen. Cultivation well up, and where cotton is up the plant looks well. Some decrease in the amount of fertilizers used, and that used was of poor quality.

**SOUTH CAROLINA**—Owing to the long drought, stands are extremely poor. Most correspondents think recent rains will bring the cotton up, but a few believe considerable seed may have rotted in the ground. Cultivation well up. The small amount of cotton that is up is looking healthy. Fertilizers used are of poor quality.

**OKLAHOMA**—Planting, though far from complete, is well advanced for the time of the year. Stands are quite generally good, with planting healthy. Ground well prepared in most localities, but dry weather in some sections and heavy rains in others have interfered with best preparations to some extent. Cultivation fairly well up, only a comparatively small number of fields being in grass.

**TENNESSEE**—Planting has progressed favorably, and probably 85 per cent of the crop is up. Stands generally are good, com-

plaint being somewhat less than the average. Cool weather has delayed to a certain extent, but plant as a whole is strong and healthy. Rains have hindered cultivation slightly, but ground generally is in good condition and the past few days of favorable weather has probably done much to advance the work of cleaning the fields.

**TEXAS**—Dry weather in the south and heavy rains in other sections of the State have retarded development, and the crop is late, but planting is going forward rapidly and the crop is coming to a good stand. Some fields are in the grass as a result of rains, but labor is plentiful, and with present weather conditions cultivation should soon be well up. Some boll weevil reported around Dublin, with signs of their coming to other sections.

# BEAUTIFUL CORFU

The Villa Achilleion.

ONLY a little over a decade ago the beautiful and picturesque Elizabeth, empress of Austria, built upon that lovely island, Corfu, the Villa Achilleion. And here just to the west of northern Greece, that restless royal soul was wont to "steal awhile away" from the irksome royal etiquette of the Austrian court and "invite her soul." Then a wretched anarchist shot her in Switzerland and presently the kaiser acquired the delightful Villa Achilleion as a southern residence.

Now that the allies, who have occupied Corfu, have decided to there rehabilitate the Serbian army the charming little island is again in the public eye, writes F. Maude Smith.

If you love color, go to Corfu.

Corfu, like all Greece, is simply bathed in light.

Under certain conditions the mountains are lilac, deepening to rose and crimson, the fields violet, with salmon pink, purple, ochre and cinnamon, all melting into each other. Over all is "a sky miraculously blue."

Though separated only by a strait from Greece visitors usually come across the Adriatic from Brindisi, embarking in the evening and seeing the island next morning. Others come down from Fiume and Trieste. One may simply stop as long as the ship is discharging and taking on cargo, galloping over a part of the ground, or one may "stay over," which is, of course, the better plan.

In fact, most of us, after once getting ashore at these lovely eastern places, never leave, thanks to the confusing noise and insolence of the boatmen who convey passengers and luggage ashore.

The island and the city.

Corfu (Kerkyra) is the capital of its namesake island. Very irregularly shaped it covers 277 square miles and contains something like 115,000 inhabitants, over 25,000 of this population being in the city of Corfu and its suburbs. The safe and spacious harbor on the east side, next Greece, is lively with shipping (they export olive oil and a few years ago imported chiefly Russian grain and English manufactures). There are ruined fortifications, of course, the Fortezza Vecchia to the east of the town and the Fortezza Nuova to the northwest. Originally the town was inclosed by a wall, so the streets are very narrow and the stone houses four and five stories in height. March, April and May are the ideal times in which to visit this interesting island. October and the first half of November are also very pleasant, but the summer is very hot and the winter is noted for sudden changes of temperature and heavy rains.

In the Odyssey one comes upon Corfu under the rule of Alkinoos, the ancient identifying it with the Phæacian island of Scheria.

The Corinthians in 734 B. C. established a colony here and the infant so flourished as to menace mamma. In 665 B. C. they fought a battle, the now grown-up offspring (called Corcyra) being victorious. A shrewd colony, she did not share in the Persian wars because she was waiting to throw in her lot with the victors.

Indeed, it has been a case of war, war, war, with Corfu. In 229 B. C. the Romans took possession, but on the partition of the Byzantine empire by the Crusaders in 1205 A. D. it fell to the share of the Venetians, who were replaced by the kings of Naples from 1267 to 1350. The Venetians took it again in the fourteenth century. The Turks made two tries for it (1537 and 1716) and the French occupied it from 1807 to 1814, while from 1815 to 1863 it formed with the other Ionian islands a Heptanesos (seven-island state) under England's protection. In 1858 Gladstone was sent as extraordinary commissioner to consider the grievances of the people. In 1863 the English yielded to the desires of the islanders and consented to their incorporation in the kingdom of Greece.

Its Beautiful Gardens.

Having been released from the Dogana (custom house) the visitor may stroll eastward to the royal palace (built by the English) and to the Splinata (esplanade) that is from the new fortifications to the old ones. Continuing south we come upon the strada marina, where the sea and the moon-

light are enjoyed to wonderful advantage.

And the gardens!

In them flourish the olive, cypress, orange, lemon, fig, magnolia, palm, banana, eucalyptus, aloe and papyrus. But the olive is seen in greatest profusion in the center of the island, 4,000,000 trees being in the groves. April sees them in bloom, while the fruit ripens from December to March. Unfortunately Corfu does not produce choice oil owing to the primitive appliances for expressing and clearing it.

The inhabitants show more culture than is usual in Greece. This is said to be due to the Venetian and English domination of Corfu. Good roads lead to nearly all parts of the island.

Some seven miles south of Corfu is the Villa Achilleion, which, a few years ago, was to be seen providing one was armed with a pass from the Austrian consul. The most interesting part of its varied architecture is the colonnade to the east with its fine frescoes. The large park descends to the sea in terraces, the fishing village of Benizze with the remains of a Roman villa being below. Among the works of art is a Dying Achilles by Herter and (in a small temple) a seated marble statue of Heine by the Danish sculptor Hasselriis.

Drives to the westward are embowered with medlar and apricot trees and romantic cypresses.

A drive to the north and west of the city of Corfu (nearly crossing the long, narrow island) discloses red cliffs on the west coast honeycombed with caves. On top of the rocky height there's a wonderful view—behind the city of Corfu and the picturesque east coast, while far to the northwest are the Othonian islands, one of which is thought to be the Isle of Calypso. There is also a fantastically shaped rock resembling a sailing ship which was once thought to have been actually the vessel of Ulysses.

Real climbers are content with nothing less than an ascent of Monte S. Salvatore, the island's highest peak. This view embraces the entire island, the Othonian Isles, the mainland of Greece to the east, the island of Cephalonia to the south and to the west the sea.

## PUT IN HOLIDAYS WALKING

One Hundred and Forty Miles Traveled in Seven Days is Record of Minnesota Girl.

While many Minneapolitans rose from the dinner table and walked to the drug store two blocks away to settle their Christmas dinners, Miss Amelia Braathen went without a Christmas dinner and started out on a walk which lasted a week, says the Minneapolis Journal. She returned to Minneapolis New Year's eve after she had walked 140 miles and visited fourteen towns and eight counties. She wore out a pair of shoes, but came home satisfied with her Christmas vacation.

Miss Braathen was the guest of a sister in Minneapolis. She is teaching a rural school. She left Minneapolis for her work soon after returning from the walking trip.

"I have always liked to walk," Miss Braathen said. "My home is on a farm and there is a lot of room for walking out there. I often used to take walks of ten miles or more, but this was my first attempt at a really long trip."

"On the whole, the trip was not eventful. In all the towns through which I passed I was received most courteously. The last day of my trip I thought my shoes would give out before I reached home, so I bought a pair of rubbers to save the day."

"I traveled light, with my baggage in a small satchel. The first few days I took it easy because I didn't know how fast I could go, but one day I made twenty-five miles. After that I took it easy again, because I was getting near home too fast."

Well Received.

Mabel—So you asked papa for my hand? Did he give you any encouragement?

Arthur—Well, no, but he gave me a drink and a cigar, so I had no kick coming.

At Frankfort they have been putting oil on the streets during the summer months since 1911, and the following from the Frankfort State Journal will be of interest: "Much misinformation has been given with reference to the cost of oiling as it would fall upon the individual property owner. The actual cost is too trifling to have caused as much talk as it has. It is estimated by the street department that even with the increased price of oil the cost of oiling the street in front of a fifty foot lot is not exceeding \$3.50. One gallon of oil will cover two square yards." The Courier, after talking with oil experts, believes this estimate is too low, especially for the first season.

## A MEDICINE OF MERIT

Meeting With Great Success As  
It Fills a Long Felt Want.

There are many new articles being put on the market each year, but seldom has any new medicine gained the praise of the public as Lemolac has; this is due to the fact that Lemolac is a substitute for Calomel that really does the work in such a pleasant manner. It does not gripe, sicken or sallowate you and cause you to lose time from your work. The name, Lemolac, is very easy to remember as it is Calomel spelled backwards. We don't mind advertising an article of merit and we believe any one will praise Lemolac who gives it a trial. We are advised that Helm & Helm sell lots of Lemolac. Adv.

The only place where a man can booze without injury to any one but himself, is on an island in mid-ocean and where there are no other people within a thousand miles. ### LEVEE WORK MAY START IN NEXT FEW DAYS.

Supt. Templeton and party were here from Nashville yesterday conferring with the local committee as to final details of the proposed city levee. Our understanding is that everything is now in tip-top shape and work will most likely begin in a few days. In fact the railroad company is ready to begin now—and they are to do the "lion's share" of it. Matters pertaining to the right-of-way have been satisfactorily adjusted and all parties are co-operating in the work. It was learned at the last minute that the railroad could not legally engage in levee construction and the work will be carried on by the city, with the railroad as a contributor, but under the supervision of the railroad engineers. On this account, it will be necessary for the city fathers to pass an ordinance relating to this measure. With this exception, everything is about in shape for work to start.

### GOOD THINGS FOR THE TABLE.

It will always be one of the problems of the housewife to use the left over meats in such a way that they seem not to be reheated.

**Lamb Souffle.**—Put two cupfuls of cold lamb through the meat chopper, add a little minced

parsley and a cupful of white sauce made of cream, a dash of onion juice, salt and pepper to taste with two slices of cooked bacon, minced, and one beaten egg yolk. Cook this over hot water until well heated. Cool and fold in the stiffly beaten whites of two eggs; turn into a buttered dish or custard cups and stand them in hot water in the oven to cook for half an hour. Serve at once with brown bread sandwiches which have been spread with butter and chopped green peppers.

**Combination Salad.**—Chop in a chopping bowl five fresh green peppers, the sweet ones. There should be a cupful of the pulp. Remove the pulp from a grapefruit, mix with the pepper, adding chopped blanched chestnuts which have been cooked until soft, then mashed. Make nests of curly lettuce, heap in the grapefruit, sprinkle with the peppers and stir the chestnuts into the mayonnaise dressing and heap on the salad. Serve ice cold.

**Emergency Dessert.**—Beat yolks of two eggs light, add a cupful of milk, one half a cupful of maple sirup and mix well. Slice bread in thin slices, dip in milk and egg and fry in hot fat. Spread each piece with preserves of pear or peaches or a section of pineapple. Arrange on a dish and serve with the following sauce: Beat the whites of two eggs stiff, add a half cupful of sugar and the juice of two lemons. Heat two cupfuls of fruit juice and when hot stir in the whites of the eggs, stir but do not cook.

**Eggs and Rice.**—This is another wholesome dish easy to prepare. Take a half cupful of rice or less, brown in butter, add water and cook until tender, then stir in two or three eggs, a teaspoonful of Worcestershire sauce and a half cupful of cheese. Serve or toast.

### PIPE ORGAN ASSURED. CARNEGIE GIVES \$1,125.

The First Methodist church will have a pipe organ. The pipe organ committee has raised the necessary \$1,125 at home and the Andrew Carnegie Corporation has donated a like amount, making a fund of \$2,250, which is sufficient for purchasing the instrument desired.

The committee is now visiting nearby towns which have organs, with a view to inspecting and deciding what make of organ would best suit the needs of the Hickman church. We understand an order will be placed within the next ten days, which means the organ would be installed about September 1st, as these instruments are built after orders are received.

### REV. CRAIN ACCEPTS CALL PASTOR BAPTIST CHURCH.

We are sure the citizens of Hickman will be glad to welcome to this city Rev. H. M. Crain and his family, of Milan, Tenn., the former accepting a call as pastor of the First Baptist church.

The First Baptist church has been without a pastor since last November when Rev. Hutchison resigned.

Resolutions, printed elsewhere in this issue, drawn by members of Rev. Crain's former congregation, at Milan, are certainly a splendid recommendation for the new pastor.

### A WOMAN.

HE is a woman, but of spirit brave. To bear the loss of girlhood's giddy dreams; The regal mistress, not the yielding slave Of her ideas, spurning that which seems For that which is and, as her fancies fall, Smiling—the truth of love outweighs them all.

She looks through life and with a balance just Weighs men and things, beholding as they are The lives of others, in the common dust She finds the fragments of the ruined star; Proud, with a pride all feminine and sweet, No path can soil the whiteness of her feet.

The steady candor of her gentle eyes Strikes dead deceit, laughs vanity away; She hath no room for petty jealousies, Where faith and love divide their tender way; Of either sex she owns the nobler part, Man's honest brow and woman's faithful heart.

She is a woman, who, if love were guide, Would climb to power or in obscure content Sit down; accepting fate with changeless pride— A need in calm, in storm a staff unbent; No pretty plaything, ignorant of life, But man's true mother and his equal wife. —Hayard Taylor.

### PERVRSITY OF WOMEN.

BOYS will be boys Until twenty-one—no more. Girls remain girls Up to twenty-four. —Kansas City Journal.

### CENTENARIAN DIES. OLDEST CITIZEN IN WEST KY.

William Noah Swindle, Fulton county's oldest citizen—it not the oldest man in Western Kentucky, died at his home in this city a few minutes past midnight yesterday morning. At bedtime he was apparently in as good health as he ever was, but shortly before 12 o'clock he woke his wife and complained of being cold. While she built a fire and procured more cover, life went out.

"Grandpa" Swindle was born in Indiana, June 1, 1814. He died May 31, 1916, making him almost 102 years of age. While no physician was in attendance, Dr. Lon Naylor, who had attended him on former occasions, gave the cause of death as heart failure, as he was subject to this trouble.

He is survived by his wife, who must be close to 90 years, and one daughter, Mrs. Charles Little, with whom he made his home. Deceased had resided here about one year. Funeral services were held at the home yesterday afternoon and the body consigned to rest at the city cemetery.

Mr. Swindle, in view of his extreme age, was a unique character. Few men of half his age possessed equal vitality; he romped and played with children and seemed almost as active as they. He possessed a full suite of hair; read the finest print easily without glasses. Association with children pleased him and furnished him his greatest diversion. During his active days, he followed ordinary labor for a livelihood, but possessed no health-wrecking habits. These two things may have contributed largely to his longevity. At any rate, he led what might be termed a "simple life."

Grandpa Swindle was a favorite with the children; they played with and learned to love the venerable old man. A most touching and sincere tribute of childish admiration was witnessed early yesterday morning when the news of the old man's death reached his little friends. Scarcely had his body been placed in the casket when the little ones began bringing bouquets of flowers, gathered and arranged in their own way, and placed upon it. Long before the noon hour the casket was literally hidden beneath blossoms tenderly laid upon it by childish hands, seeming to refute the sad, yet accepted theory of the bard of Avon, "youth and age cannot dwell together."

"After the Ball," a six reel feature at the Crystal Tuesday, was a fascinating photoplay. Mr. and Mrs. Colvin sang the famous old song, which added much to the screen effect.

David Oliver, of Pulaski, Ill., will return home this week after attending school here this year.

Weather forecast for you: Cooler the day you put on a Leibovitz Cool-Crash Suit.

STATE CONVENTION  
HARMONIOUS AFFAIR.

The Democratic State convention, which met in Lexington, Wednesday, elected eight delegates-at-large, two delegates and two alternates from each of the eleven congressional districts to the Democratic National convention at St. Louis, and instructed them to vote for the re-nomination of President Woodrow Wilson.

The delegates-at-large selected are Governor A. O. Stanley, United States Senator Ollie M. James, Senator J. C. W. Beckham former Governor James B. McCreary, J. N. Camden, Henry Buschmeyer, Judge Allie W. Young and Lieut. Gov. James D. Black.

It was the original intention of the leader in control of the convention to elect 4 delegates-at-large, but on arrival of Senator Beckham it was decided to elect eight, with a half vote each, and no alternates.

The administration of President Wilson was highly praised in the resolutions adopted by the convention.

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the house-

work and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy." — Mrs. Wm. GREEN, 332 S. Addison Street, Indianapolis, Indiana. ## REPUBLICAN CONVENTION CHICAGO, JUNE 7th.

The sixteenth national convention of the Republican party, which meets in the Coliseum in Chicago on June 7th, will be one of the most interesting and exciting gatherings ever held by that party. Excitement will be intensified because of the uncertainty of the nominee. When the first ballot is taken there will be a dozen men voted for, any one of whom may subsequently be the fortunate one. It is conceded that all of these have a chance, some better than others.

Another thing that tends to add interest is the attitude of the Progressive party. The split of 1912 is vividly recalled. Will the two factions get together this year, or will there again be a third ticket?

## NEW PARTY RULES.

One of the new party rules enacted by the Democratic convention is that all precinct committeemen who may become candidates for office, shall automatically vacate their place on committees. Another rule directs that precinct committeemen throughout the State shall be elected December 2 next and that their term shall be for four years. All members of committees must be residents of the precinct or district they represent.

## J. B. KIMBLE KILLED BY RASE LACEY.

J. B. Kimble, of Hallwell, Ky., was shot to death by Rase Lacey, Thursday morning at 5:30 o'clock as a result of a quarrel between Mr. Kimble, George Lacey, and two sons, Rase and Calvin Lacey.

The affair occurred in Mr. Kimble's barn lot near his home. It is stated that the four men were having a dispute over some partnership wheat that they were selling.

Mr. Kimble was shot 4 times. One shot taking effect in the face, under the left eye; one in the body, one in the left arm and one in the lower limb.

Physicians were immediately summoned and made every effort possible that medical aid could do to save his life, but death occurred a few minutes later.

Calvin Lacey was seriously injured during the quarrel and was carried to Clinton for medical aid.

George Lacey and Rase Lacey were arrested and placed in jail at Clinton.

Mr. Kimble was one of the wealthiest and most prominent farmers of Hickman county and owing to the prominence of the Kimble family the affair is one of the most deplorable affairs that has ever occurred in that community.

The deceased is survived by a wife and five children, also two brothers, George and Joe Kimble, all of that community.

## TRY IT! SUBSTITUTE FOR NASTY CALOMEL.

Starts Your Liver Without Making You Sick And Can Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives you better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

## BOND ISSUE CARRIES AT TUNE OF \$7 TO 6.

Thursday's school bond election ended with a vote of \$7 for and 6 against the bond issue.

The result means school bonds to the extent of \$7000 will be issued by this district for the purpose of building a new four room, brick school building, to be located in the Carnegie library grounds. This building will be used for high school purposes. As heretofore stated, the board was face to face with a serious proposition; that of providing more school room. For the past two years, on account of increased attendance, all rooms were over-crowded, and in addition to this the basement of the library was being used for primary grades. In 1911, Gen. H. A. Tyler came to our rescue and built a four room ward school in West Hickman, which he presented to the town. Now this doesn't take care of the overflow.

The voting of bonds for a new building is the sane and sensible way out of the present difficulty. The tax will be small and all children will be able to secure a full day's work during the school term.

## WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the house-

work and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy." — Mrs. Wm. Green, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein a woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

### REPUBLICAN CONVENTION CHICAGO, JUNE 7th.

The sixteenth national convention of the Republican party, which meets in the Coliseum in Chicago on June 7th, will be one of the most interesting and exciting gatherings ever held by that party. Excitement will be intensified because of the uncertainty of the nominee. When the first ballot is taken there will be a dozen men voted for, any one of whom may subsequently be the fortunate one. It is conceded that all of these have a chance, some better than others.

Another thing that tends to add interest is the attitude of the Progressive party. The split of 1912 is vividly recalled. Will the two factions get together this year, or will there again be a third ticket?

### NEW PARTY RULES.

One of the new party rules enacted by the Democratic convention is that all precinct committeemen who may become candidates for office, shall automatically vacate their place on committees. Another rule directs that precinct committeemen throughout the State shall be elected December 2 next and that their term shall be for four years. All members of committees must be residents of the precinct or district they represent.

### BERRY CROP ABOUT OVER.

This week will wind up the strawberry crop in this section with the exception of a few late ones. While this has been one of the largest crops in a number of years, the price wasn't sufficient for the growers to realize the profit as in previous years. ### J. B. KIMBLE KILLED BY RASE LACEY.

J. B. Kimble, of Hallwell, Ky., was shot to death by Rase Lacey, Thursday morning at 5:30 o'clock as a result of a quarrel between Mr. Kimble, George Lacey, and two sons, Rase and Calvin Lacey.

The affair occurred in Mr. Kimble's barn lot near his home.

It is stated that the four men were having a dispute over some partnership wheat that they were selling.

Mr. Kimble was shot 4 times. One shot taking effect in the face, under the left eye; one in the body, one in the left arm and one in the lower limb.

Physicians were immediately summoned and made every effort possible that medical aid could do to save his life, but death occurred a few minutes later.

Calvin Lacey was seriously injured during the quarrel and was carried to Clinton for medical aid.

George Lacey and Rase Lacey were arrested and placed in jail at Clinton.

Mr. Kimble was one of the wealthiest and most prominent farmers of Hickman county and owing to the prominence of the Kimble family the affair is one of the most deplorable affairs that has ever occurred in that community.

The deceased is survived by a wife and five children, also two brothers, George and Joe Kimble, all of that community.

Thou go not, like the quarry slave

Scourged to his dungeon, but, sus-  
tained and soothed

## THE SPINNER.

THE spinner twisted her slender thread  
And sat and spun.  
"The earth and the heavens are mine,"  
she said,  
"And the moon and sun.  
Into my web the sunlight goes,  
And the breath of May  
And the crimson life of the new blown  
rose  
That was born today."

THE spinner sang in the hush of noon.  
And her song was low:  
"Ah, morning, you pass away too soon;  
You are swiftly to go.  
My heart overflows like a brimming cup  
With its hopes and fears.  
Love, come and drink the sweetness up  
Ere it turns to tears."

THE spinner looked at the falling sun.  
"Is it time to rest?"  
My hands are weary—my work is done;  
I have spun and woven with patient eyes  
And with fingers fleet.  
Lo, where the toil of a lifetime lies  
In a winding sheet!"

STOCK COMPANY BUILDING  
LARGE FERRY BOAT.

In the local dock, a crew of men are engaged in building cabin and upper structure on the hull of a new ferry boat, which is to be used in the Hickman-Dorena service.

The boat will be owned and operated by a \$2,500 corporation, composed of Jno. McFarland, Ed and Alex Barnes, Jno. Bryant, Joe Polhames, Col. G. L. Walker, W. A. Dodds, Ernest Johnson, S. L. Dodds, C. T. Callahan, Ben White, Jas. Pickett, C. G. Schlenker and Hollie Henderson. No one person will be permitted to own more than forty shares of stock.

The boat is to be 60x20 feet, large enough to carry a half dozen wagons at one time and with commodious passenger quarters. A coal oil engine of 30 h. p. will furnish the power. Mr. Pickett, who is in charge of the work, hopes to have the boat in commission in about 30 days. She will be the finest thing in the way of a ferry ever used in the local trade.

## A USEFUL INDICATOR.

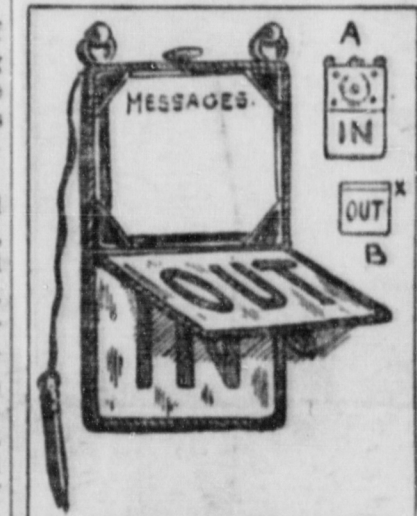

An "in" and "out" indicator of a particularly useful type is shown in the accompanying sketch. For making it, for the foundation a piece of thin wood measuring 7 inches in length and 3 1/4 inches in width will be required.

The front of the wood is covered with green watered silk, upon the lower half of which the word "in" has been worked with crimson silk.

To cover the board, turn the material over at the edges and fasten it down at the back with a strong adhesive. Sewed on in the center of the board is a piece of stiff cardboard, covered on both sides with silk and edged with a crimson silk cord, carried into a loop in the center in front. On the material covering the upper side of this card the word "out" is embroidered in crimson silk. This card is fastened in place by a tab of silk left over at the upper edges. The cross in diagram B indicates this; it should be sewn in place prior to covering the wood.

Four small "corners" made of kid are glued upon the upper part of the board, and under these corners pieces of paper cut to fit are slipped. Upon the left hand side a pencil is attached, and for suspending the indicator from nails in the wall two small rings are sewn on at the top.

To indicate "in" the flap in the center is fastened over the tablet for mes-

Neat "In" and "Out" Indicator.

sages by means of the loop of cord and a barrel-shaped button sewn on in the center at the top. On going out this flap can be let down by unbuttoning it, and when lowered it will cover up the portion of the indicator with "in" upon it and expose the word "out," and it will also uncover the tablet for messages. Diagram A shows the tab fastened up, and some pretty little floral design can be worked upon the back of it.

## For the Trousseau.

A pretty gift for the engaged girl who is busily stitching on her trousseau is a set of trousseau bands, as they are called. They are the girl's favorite color in ribbon and are shirred for a goodly distance of their length, leaving plain ribbon ends to be tied in a fetching bow about a pile of snowy nightgowns, chemises or petticoats. Plain ribbon can be embroidered in silk to designate its particular purpose and an elaborate set of ribbons will include enough to bind the best sheets, pillow cases, napkins, tablecloths, towels and face cloths. Surely this is a welcome suggestion for the next linen shower.

## Moss Rose Corsages.

Moss rosebuds are favored this season for corsage bouquets, and the dainty, old-fashioned moss roses are peculiarly suited to quaint little frocks in pale gray tints such as pretty women are wearing now. Pretty women, one stipulates, for no plain sister should ever venture to wear gray, whose tints are only for flawless complexions.

All that wasn't harmony at the Old Harmony singing at Benton, Sunday, was discord. Discord was responsible for the stabbing of Coy Cunningham, a Graves county farmer, by Levi Bolland, hostler of the Tom Vaughn livery stable, when the former went to the livery stable to get his horse and buggy. Bolland was arrested, charged with malicious cutting. Twenty arrests for drunk and disorderly conduct were made.

## RESOLUTIONS.

Whereas, Brother H. M. Crain became pastor of the Milan Baptist church July 1, 1913, and during the time he has been with us he has become attached to the church by his Godly walk, deep piety, ability as an expounder and true interpreter of the Word of God and,

Whereas, He has signified his intention of leaving us to accept work for the Master at Hickman, Ky., a wider field for labor and usefulness, therefore, be it resolved by the Baptist church of Milan, in regular conference assembled,

First, That we deeply regret it our duty to accept his resignation, but in so doing we trust and believe that the Master calls and demands our brother's services in the broader field, and that we recognize in Bro. Crain a man of rare ability as a teacher, a model christian in his walk, convictions and general demeanor, and

Second, That since he has been our pastor he has given his undivided time, and untiring energy in building up the cause of Christ at this place. As pastor he has not only labored in the pulpit and among the members, but in the Sabbath school he has been a willing worker as a teacher, and in the Ladies Aid and Missionary Societies he has been a valuable co-worker.

Third, That we gladly recommend and commend Bro. Crain and his estimable wife and children, to any church and community where ever he may be called and,

Fourth, That we pray God's blessings upon him and then wherever they may go, and that He will give him an abundant harvest for his labor of love.

Fifth, Be it further resolved that this resolution be spread upon the minutes of our church conference, that a copy be given Brother Crain, and a copy be sent to the Baptist and Reflector for publication.

Signed,

B. D. Mills, Chan.,

Mayor J. A. Coble, S. D. Woosley, W. C. Farris and A. E. Kirkland, four live wires and boosters of Union City, were here yesterday to invite our people over to their big Independence Day celebration. It will be remembered that year before last our Union City neighbors pulled off, although they had their 4th well advertised, in our favor. Here's a chance for Hickman folks to show Union City our appreciation to their former courtesy by going over to enjoy a day of fun and frolic with them. Mayor Coble asks the Courier to extend a cordial invitation to all its readers to be Union City's guests July 4th and we are sure you will enjoy the day.

### WHEN THE SUMMONS COMES.

S live that when thy summons comes to join  
The innumerable company that  
move  
To the pale realm of shade,  
where each shall take  
His chamber in the silent halls of  
death,  
Thou go not, like the quarry slave  
at night,  
Scourged to his dungeon, but, sustained  
and soothed  
By an unfaltering trust, approach  
thy grave  
Like one who wraps the drapery of  
his couch  
About him and lies down to pleasant  
dreams.

—Bryant.

### THE SPINNER.

THE spinner twisted her slender thread  
And sat and spun.  
"The earth and the heavens are mine,"  
she said,  
"And the moon and sun.  
Into my web the sunlight goes,  
And the breath of May  
And the crimson life of the new blown  
rose  
That was born today."

THE spinner sang in the hush of noon.  
And her song was low:  
"Ah, morning, you pass away too soon;  
You are swiftly to go.  
My heart o'erflows like a brimming cup  
With its hopes and fears  
Love, come and drink the sweetness up.  
Ere it turns to tears."

THE spinner looked at the falling sun.  
"Is it time to rest?"  
My hands are weary—my work is done;  
I have spun and woven with patient eyes  
And with fingers fleet.  
Lo, where the toil of a lifetime lies  
In a winding sheet!"

—Mary Alice De Vere.

As between Roosevelt and Ford,  
the average Republican voter  
will choose Wilson.

### STOCK COMPANY BUILDING LARGE FERRY BOAT.

In the local dock, a crew of men are engaged in building cabin and upper structure on the hull of a new ferry boat, which is to be used in the Hickman-Dodds arena service.

The boat will be owned and operated by a \$2,500 corporation, composed of Jno. McFarland, Ed and Alex Barnes, Jno. Bryant, Joe Polhamas, Col. C. L. Walker, W. A. Dodds, Ernest Johnson, S. L. Dodds, C. T. Callahan, Ben White, Jas. Pickett, C. G. Schlenker and Hollie Henderson. No one person will be permitted to own more than forty shares of stock.

The boat is to be 60x20 feet, large enough to carry a half dozen wagons at one time and with commodious passenger quarters. A coal oil engine of 30 h. p. will furnish the power. Mr. Pickett, who is in charge of the work, hopes to have the boat in commission in about 30 days. She will be the finest thing in the way of a ferry ever used in the local trade.

The Social Embroidery Club held an enjoyable meeting with Mrs. W. E. Caldwell on Monday afternoon. Sewing and social conversation were enjoyed for an hour after which two interesting papers were read by Mrs. Phelps and Mrs. Posey. A contest that afforded great amusement formed a delightful part of the entertainment, Mrs. Laird being the lucky contestant. In addition to the club members several invited guests were present. At the close of the afternoon cream and cake were served. The club meets with Mrs. E. Creason on Monday, June 5th.

Masons from all part of the State will celebrate a Home Coming in connection with the annual St. John's Day picnic at Fontaine Park, in Louisville, June 23-24. A large delegation of Masons from every county in Kentucky is expected to attend.

Mrs. Oee Harris and children are visiting relatives at Cayce this week.

### SUCCUMBS TO TYPHOID.

Thomas, the little ten year old son of Mrs. Charlie Brown, died at his home in this city Tuesday of typhoid fever. Burial occurred at Brownsville Wednesday afternoon.

The little fellow came here with his parents from Johnsonville, Tenn., about a year ago. His father died in Hickman a few months ago from a shotgun received at Geo. Evan's store in the lower bottom. His mother and four other children survive.

### A USEFUL INDICATOR.

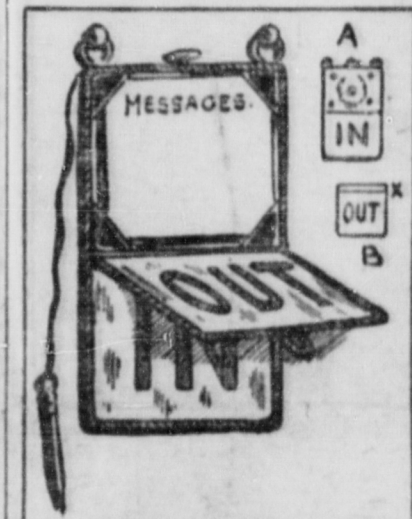

An "in" and "out" indicator of a particularly useful type is shown in the accompanying sketch. For making it, for the foundation a piece of thin wood measuring 7 inches in length and 3 1/2 inches in width will be required.

The front of the wood is covered with green watered silk, upon the lower half of which the word "in" has been worked with crimson silk.

To cover the board, turn the material over at the edges and fasten it down at the back with a strong adhesive. Sewed on in the center of the board is a piece of stiff cardboard, covered on both sides with silk and edged with a crimson silk cord, carried into a loop in the center in front. On the material covering the upper side of this card the word "out" is embroidered in crimson silk. This card is fastened in place by a tab of silk left over at the upper edges. The cross in diagram B indicates this; it should be sewn in place prior to covering the wood.

Four small "corners" made of kid are glued upon the upper part of the board, and under these corners pieces of paper cut to fit are slipped. Upon the left hand side a pencil is attached, and for suspending the indicator from nails in the wall two small rings are sewn on at the top.

To indicate "in" the flap in the center is fastened over the tablet for mes-

Neat "In" and "Out" Indicator.

sages by means of the loop of cord and a barrel-shaped button sewn on in the center at the top. On going out this flap can be let down by unbuttoning it, and when lowered it will cover up the portion of the indicator with "in" upon it and expose the word "out," and it will also uncover the tablet for messages. Diagram A shows the tab fastened up, and some pretty little floral design can be worked upon the back of it.

### For the Trousseau.

A pretty gift for the engaged girl who is busily stitching on her trousseau is a set of trousseau bands, as they are called. They are the girl's favorite color in ribbon and are shirred for a goodly distance of their length, leaving plain ribbon ends to be tied in a fetching bow about a pile of snowy nightgowns, chemises or petticoats. Plain ribbon can be embroidered in silk to designate its particular purpose and an elaborate set of ribbons will include enough to bind the best sheets, pillow cases, napkins, tablecloths, towels and face cloths. Surely this is a welcome suggestion for the next linen shower.

### Moss Rose Corsages.

Moss rosebuds are favored this season for corsage bouquets, and the dainty, old-fashioned moss roses are peculiarly suited to quaint little frocks in pale gray tints such as pretty women are wearing now. Pretty women, one stipulates, for no plain sister should wear venture to wear gray, whose tints are only for flawless complexions.

All that wasn't harmony at the Old Harmony singing at Benton, Sunday, was discord. Discord was responsible for the stabbing of Coy Cunningham, a Graves county farmer, by Levi Bolland, hostler of the Tom Vaughn livery stable, when the former went to the livery stable to get his horse and buggy. Bolland was arrested, charged with malicious cutting. Twenty arrests for drunk and disorderly conduct were made.

### RESOLUTIONS.

Whereas, Brother H. M. Crain became pastor of the Milan Baptist church July 1, 1913, and during the time he has been with us he has become attached to the church by his Godly walk, deep piety, ability as an expounder and true interpreter of the Word of God and,

Whereas, He has signified his intention of leaving us to accept work for the Master at Hickman, Ky, a wider field for labor and usefulness, therefore, he it resolved by the Baptist church of Milan, in regular conference assembled,

First, That we deeply regret it our duty to accept his resignation, but in so doing we trust and believe that the Master calls and demands our brother's services in the broader field, and that we recognize in Bro. Crain a man of rare ability, as a teacher, a model christian in his walk, convictions and general demeanor, and

Second, That since he has been our pastor he has given his undivided time, and untiring energy in building up the cause of Christ at this place. As pastor he has not only labored in the pulpit and among the members, but in the Sabbath school he has been a willing worker as a teacher, and in the Ladies Aid and Missionary Societies he has been a valuable co-worker.

Third, That we gladly recommend and commend Bro. Crain and his estimable wife and children, to any church and community where ever he may be called and,

Fourth, That we pray God's blessings upon him and them wherever they may go, and that He will give him an abundant harvest for his labor of love.

Fifth, Be it further resolved that this resolution be spread upon the minutes of our church conference, that a copy be given Brother Crain, and a copy be sent to the Baptist and Reflector for publication.
